## To Whom It May Concern,

It is my distinct pleasure to provide this reference for Dr. Gwyllyn Goddard. I have served as Dr. Goddard's primary preceptor and supervisor during his return-to-work retraining program from March 2, 2026, to April 27, 2026, at the Hillside clinic in Victoria, British Columbia.

Throughout his 8-week retraining period—encompassing over 320 hours of clinical practice, case studies, and continuing medical education—Dr. Goddard has consistently demonstrated a standard of practice at the level expected of a fully competent family physician. He has shown a profound commitment to relationship-centered care, comprehensive clinical knowledge, and evidence-based practice.

Dr. Goddard's clinical retraining focused on the full scope of family medicine, including chronic disease management, preventive care, and the assessment of multi-morbidity. In his direct patient interactions, he displayed excellent rapport, clinical reasoning, and a measured, thoughtful approach to medical challenges. Furthermore, he has maintained excellent communication with staff, allied health professionals, and myself regarding patient outcomes and care planning.

Beyond his clinical capabilities, Dr. Goddard's multidisciplinary background and expertise in health promotion add considerable value to any practice group. He is a collaborative, thoughtful, and collegial professional who continually seeks to optimize patient outcomes through evidence-informed, integrative approaches.

Dr. Goddard successfully completed his required retraining and obtained clearance to practice family medicine without restriction, effective April 27, 2026. He has my highest recommendation for future clinical and locum opportunities.

Please feel free to contact me at the email address provided above should you require any further information.

Sincerely,

**Dr. Lindsay Waterman** WELL Health Medical Clinic
